

# CMMC SERVICES

## ASSESSMENTS

### 1 | CMMC Certification Assessments

SteelToad has delivered CMMC Certification Assessments for organizations of all sizes since 2022. Our assessors quickly understand your environment, ensuring accurate, efficient evaluations that respect your team's time and keep your tech staff focused on daily operations.

### 2 | CMMC Mock Assessments

SteelToad conducts CMMC Mock Assessments that mirror real Certification Assessments for true readiness. Using the CMMC CAP Assessment Guide, we evaluate every control and deliver clear, accurate, and actionable results.

### 3 | CMMC Gap Assessments

Let the SteelToad team assess your security controls, identifying both strengths and gaps. With clear insights, your technical team can target improvements and implement needed strategies more effectively.

## BUILD & MANAGE

### 4 | Building your CMMC Environment

When SteelToad builds your CMMC environment, we develop and review your policies, controls, documentation, and tool choices. We identify where CUI is handled and implement the technical controls needed for compliance. Purchase a block of hours and our team will support part or all your compliance efforts with focused expertise.

### 5 | Managing your CMMC MSSP

Let SteelToad make CMMC compliance truly turnkey. After a one-time setup fee, we fully manage your CMMC environment with simple monthly per-user pricing – covering security tools, monitoring, patching, reporting, support, and ongoing compliance guidance. We even participate in your CMMC assessment, giving your team confidence and peace of mind.
